

SEAWEED BODY WRAP

Shaping and Draining Body Treatment

Directions for use:

Eliminate dead cells with the **BODY PEEL**. Rinse with warm water.

|

Put an electric blanket on the treatment couch and plug it in. Cover with a plastic sheet and invite your customer to lie down.

|

Mix in a bowl with a spatula or a whisk by adding water progressively:

Complete body wrap:

400 g (vol. 550 ml) Seaweed powder + 800 ml warm water

Lower body only:

250 g (vol. 350 ml) Seaweed powder + 500 ml warm water

|

Ask the customer to lie on her side. Apply the warm paste with your hand (or a spatula) with long upwards strokes on the back of the body, from ankles to neck (to the waist for a lower body wrap). Ask the customer to lie on her back and apply the seaweed paste the same way on the front.

|

Wrap the client in the **plastic sheet** and over with the **electric blanket**.
Leave to act for 30 minutes.

|

Remove the seaweed off the body with a spatula and ask the customer to take a shower (or rinse with warm water and sponges or a towel)

|

Finish the treatment by the application of **SVELTEX GEL**
or
for a longer massage use the **BODY MASSAGE CREAM and BODY ESSENTIAL OILS**
(Figure Control, Cellulite Control, Stretch Marks, Tired Legs)

FOR CLIENT'S HOME USE: SVELTEX GEL: Daily

The SVELTEX GEL contains caffeine, carnitine and fibronectin.
